

gta san namaste america save game files Many people have been asking where to get the gta san namaste america save game files. In previous versions of GTA SA, these save games contained a lot of resources which were still being used in the current version of the game. Unfortunately, Rockstar has disabled most of these resources so if you want to play with them or see what is going on with them, you will need to use a modded copy of GTA SA. This is a list of websites which will let you download your saved file from older versions and put it into your current version: <http://www.online-savegame-converter.com/> http://www.gamasutra.com/features/archive/2004/01/26/announcing_the_sandbox_saves_of_san_namaste.php This is a list of websites which will let you download your save file from the current version and put it into the old versions: <http://www.gtagarage.com> (Note: This list does not include all versions of the game) Do not question this practise; if you want to play with these files, you can do it however much you like, and whenever you like without fear that Rockstar will suddenly decide to remove them in the future. If you find any more old save games of San Andreas on a website, please let me know and I will add them here. If you want to play with these save games, you need to know what kind of file they are. <http://www.gtagarage.com/mods/show.php?id=445> <http://www.sanandreasgameguide.tk/?cat=2461&subcat=140> (Note that the website does not ask for any personal details; it only asks for an e-mail address).
